DETAILED ACTION

1. This action is a requirement for Election/Restriction.
2. Claims 1-35 are pending.

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-12 and 31-35, drawn to usage measurement system and method.

Group II, claim(s) 13-22 and 28-30, drawn to cost payment/billing system.

Group III, claim(s) 23-27, drawn to medical monitoring and diagnosis system.

The inventions listed as Groups I, II and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: inventions of groups I and II belong to different sub-classes (455/405 and 455/406) and invention of Group III belongs to different class and subclass (600/300). The search for one group does not require the search for the other group.

A telephone call was made to applicant on 8/19/04 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
